Professional Summary

Result-driven Computer Science and Engineering undergraduate with strong proficiency in Full-Stack Web Development, AI, and Cloud Computing. Skilled in React.js, Node.js, Express.js, TypeScript, and Python, with hands-on experience in building scalable and user-centric solutions. Recognized for top performance in Smart India Hackathon 2024 (Top 5%) and Smart Bengal Hackathon 2025, developing impactful, AI-driven platforms.

Education

BTech in Computer Science and Engineering , Techno Mains Salt Lake –GPA: 7.2 /10	2022 – 2026
Secondary Examination(CBSE) : Delhi Public School,Siliguri–90%	2010 – 2020
Higher Secondary Examination(CBSE) : Delhi Public School,Siliguri–85%	2020 – 2022

Technical Skills

- Programming Languages: C, C++ , Java, Python, TypeScript, JavaScript
- Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Hugging Face
- Databases:MongoDB, SQL, SQL Plus
- Tools & Platforms: Git, GitHub, Twilio, NGrok, Firebase, VS Code
- Cloud & APIs: IBM Cloud, Gemini API,Groq API, Google Text-to-Speech (GTTS)

Experience

- | | |
|---|------|
| Smart India Hackathon -College Finalist(top 5%) | 2024 |
| <ul style="list-style-type: none">• Spearheaded the development of a community-driven women's safety platform, increasing reporting efficiency by 32% and boosting user engagement by 27%.• Led a 4-member team in designing a scalable architecture using React.js, Node.js, Express.js, and MongoDB. | |
| Smart Bengal Hackathon (Finalist) | 2025 |
| <ul style="list-style-type: none">• Implemented an AI-powered voice assistant connecting underprivileged farmers to agricultural solutions.• Integrated Twilio and Gemini APIs to achieve 92% accuracy in voice query handling and deployed scalable backend using NGrok and Python. | |

Projects

- | | |
|--|----------------------|
| ATS Resume Analyzer | Link |
| <ul style="list-style-type: none">• Architected a microservice that processes PDF resumes to return ATS score and improvement suggestions in JSON format, a feature absent in similar tools.• Built using Node.js, Express.js, LangChain, Groq API, and tested via Postman for real-time responses. | |
| Leave Management System | Link |
| <ul style="list-style-type: none">• Automated employee leave processing with React.js, Node.js, and PostgreSQL, reducing HR workload by 40%.• Tools Used: Typescript,JavaScript,CSS,React.Js,Node.Js,Postgresql | |
| Voice based Chatbot | Link |
| <ul style="list-style-type: none">• Developed an AI chatbot with Python, Hugging Face, and GTTS, enabling dual text-voice interaction with <1.5s response latency.• Tools Used: Python,Hugging Face,PyGame,GTTS(google text to speech) | |
